Adoption and Enablement Program

Trellance

Empower your data analytics employees with Trellance's Adoption & Enablement Program. Create even more value by adding a Center of Excellence, which empowers the organization to build self-sufficient analytics capabilities.

Use this solution to:

Deliver role-based training

- Access training for roles necessary for successful data and analytics execution.
- Ensure everyone is speaking the same language through data literacy and storytelling training.

Establish a Center of Excellence.

- Establish and govern data analytics processes and assist the business/learners with execution.

Benefits of the Adoption and Enablement Program

- Improve platform ROI and repeatable business value.
- Drive enterprise-wide adoption and culture.
- On-board and train data analysts and workers.
- Increase data analytics capabilities organization wide.
- Enable self-service analytics and solution delivery.
